2013 Fall River Cruise

By Todd Moen

The Fall Cruise on the *Minneapolis Queen* was a great evening that was once again blessed with beautiful weather and great friendships of the club members and families. The trip took place between downtown Minneapolis and the Ford Parkway bridge, passing by the University of Minnesota east and west bank campus, going under the beautiful

35W bridge and through the St. Anthony locks. The last time I was on the this part of the Mississippi River was 31 years ago in a different kind of boat, on the rowing team of the Minneapolis Rowing Club. I was able to enjoy more of the scenery on this trip, than when I was trying to avoid collisions with bridge piers and other obstacles while I was in a racing shell for the rowing team. With Captain David Robb at the helm and offering his in-depth knowledge of the river and its early history throughout the last 150 years, it was a very memorable evening that Julia and I will remember.

COMMODORE'S CORNER

By Wayne Snyder

What a great time we had on the river cruise Thursday evening!

The weather was excellent, wind could have eased a little but overall it was a beautiful cruise experience. Kevin and I tried to snag his sunk boat with the 2X4 and treblehooks but to no avail.

Maybe some one knows a scuba diver with full breathing equipment that can spend some time groping the bottom of the pond for the boat. Our next event will be the Dry Dock party and then the swap meet.

There will be a \$5.00 charge again this year for the Drydock party to keep from depleting our treasury. Please send your reservation and your guest name to Larry Wheeler. The drydock party is on November 18.

Thanks to Todd for being willing to put together a slide and video show for that event summarizing the years activities, it's always interesting to see. See you at the next meeting.

AT THE SEPTEMBER MEETING by Todd Moen

After a short wrap-up discussion of the Lighthouse Night event, Bill Lundholm presented a great slideshow on the Tall Ships event that took place in the Duluth-Superior Harbor this past summer. Thanks again, Bill!

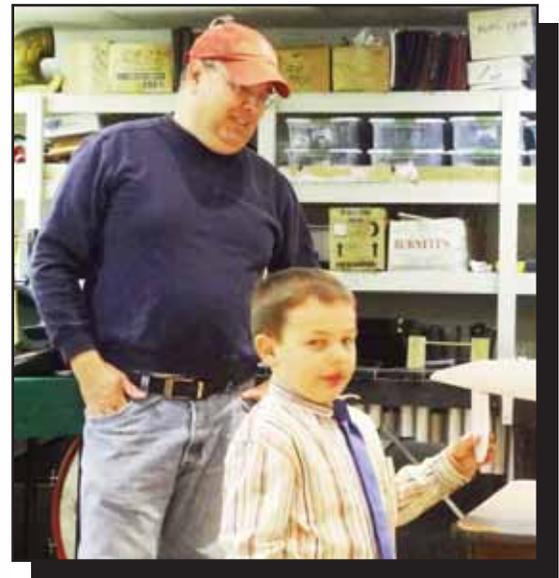

Jacob McCutcheon, our youngest club member, gave a very informative presentation on the sailboat that he is working on with his dad, Brian McCutcheon. Jacob did an excellent job on explaining how a sailboat works, and the different parts of a sailboat. We want to hear more from you Jacob, in the months ahead, Your enthusiasm for the hobby is wonderful!

Don Sektnan presented his unique wire rack for boat hauling and launching. Don, you always have great ideas!

Kevin Waldo presented a rare find of a sunken tuna boat that he discovered while searching for his own Chris-Craft boat that sank on September 15th.

This Billing boat kit was built by Karl Bottemiller out of mahogany, after buying the kit from Erwin Stevenson. After owning it for a short while, Karl then sold it to former EMYC member Terry Spletstoeszer.

Right after Terry bought it, the boat sank on Sunday, May 22, 2005. The tuna boat then became a sunken center pond resident for the next eight years in the dark murky depths at Centennial Lakes until Kevin discovered it on September 16, 2013.
